

实 习 证 明

INTERNSHIP CERTIFICATE

【公司介绍】 Company Introduction

浪潮通信信息系统有限公司是浪潮集团核心企业，专注于通信与 IT 领域，提供全球领先的数字化转型解决方案，业务覆盖云计算、大数据、AI、企业通信等，在全球设有研发中心与分支机构，拥有数千名专业技术人才。

Inspur Communication Information System Co., Ltd., a core enterprise of Inspur Group, specializes in communications and IT, offering world-leading digital transformation solutions across cloud computing, big data, AI, enterprise communications, and more. It operates global R&D centers and branches with thousands of technical professionals.

兹证明 张新唯（出生于 2001 年 8 月 2 日）于 2026 年 3 月 17 日-6 月 11 日在我公司共享平台产品处数据治理岗位全日制实习三个月，打卡 60 天，期间无缺勤、迟到早退。

This is to certify that Ms. Zhang Xinwei (b. August 2, 2001) completed a two-month full-time internship as a Data Governance Intern at the Shared Platform Product Department from March 17 to June 11, 2026, clocked in for 60 days, with no absences, lateness, or early departures.

自主学习 COSMIC 方法，独立完成数据治理平台功能点拆分、逻辑梳理及界面关系图绘制，结果精准。沉淀出可复用模板，文档编制效率提升 40%、规范度 100%，显著降低审核成本。

The student independently learned the COSMIC method and completed functional point decomposition, logic analysis, and interface relationship diagramming for the data governance platform with precision and rigor. Successfully developed reusable templates, increasing documentation efficiency by 40%, achieving 100% compliance standards, and significantly reducing review costs.

借助 AI 代理独立编写 Python 脚本，批量采集 1200 余篇高质量行业文章，构建结构化可复用知识库，采集效率提升 80%，节省手工时间 35 小时；同时快速生成多项目对比分析，缩短调研时间约 50%，为投标决策提供及时准确的技术参考。

Using AI agents to independently write Python scripts, the student batch-collected over 1,200 high-quality industry articles and built a structured reusable knowledge base,

improving collection efficiency by 80% and saving 35 manual hours. She also rapidly generated multi-project comparative analyses, reducing research time by about 50% and providing timely, accurate technical references for bidding decisions.

在受限环境（无 Node.js、无部署）下，借助 AI 代理对 Vue2+Element UI 前端项目进行静态代码分析，深入剖析组件结构、路由权限及 Vuex 状态管理，书写 5 份规范学习笔记，体现良好的总结与知识传承能力。

In a restricted environment (no Node.js or deployment), using AI agents, the student conducted static code analysis on a Vue2+Element UI frontend project, deeply analyzing component structures, routing permissions, and Vuex state management. She produced five standardized study notes, demonstrating strong summarization and knowledge transfer abilities.

综合评价 / Comprehensive Evaluation

专业基础扎实，数学逻辑思维清晰，数据分析能力强，自主学习能力突出。具有良好沟通协调能力与团队精神，运用 AI 辅助工具高效完成数据处理、代码分析等工作，展现出优秀的职业素养与发展潜力。实习期满，综合评定优秀（90 分/100 分）。

Solid professional knowledge, clear mathematical logic, strong data analysis, and excellent self-learning ability. Good communication, teamwork, and proficiency in AI-powered tools for efficient data processing and code analysis, demonstrating outstanding professionalism and potential. Internship completed with overall rating Excellent (90/100).
